Description

Vehicle Description

Custom Desert Patrol Bike: One of a kind custom Kawasaki KX500 built for movie use.

Bike is in great running condition and race ready with a lot of customization work done to it. The base is a KX500 but a great deal of custom work has gone into this machine including a polished motor. The weapons on board are mounted for display with several of them capable of being used on the bike while moving (IMPORTANT: these weapons are paintball, airsoft or are fully inert props...they cannot fire actual ammunition). This is a great custom bike and has been featured at various events including a major car show in Beverly Hills CA.

This bike has actual desert camo fabric covered body parts and desert camo tires (yes these are actual camo tires and not photoshop images). The bike was built by a veteran stunt coordinator for use as a movie stunt bike so there is a minor amount of wear and tear. However overall the bike runs and looks great with the exception of some minor wear to the camo fabric but we think you will agree that only adds to its authentic look and feel as a military vehicle. (note: we will show you how to change the fabric if you desire)

As an added bonus all weapons shown are included with the bike and range from a custom Rap4 M4 magazine fed paint marker with custom paint, to a Classic Army air soft M249 machine gun with dummy rounds. Set up also includes a actual military issue AT4 rocket launcher and M72LAW rocket (inert and non functional) that are in perfect condition. This amazing bike also features a functional side mount field radio, a boarding tactical helmet w/night vision mount for the rider, and a customized ghillie suit for the bike/rider.

If that's not enough we have also included a few other tactical items such as a Safariland bullet proof vest w/trauma plate in your choice of size up to XXL.

A note on the weapons: the M249 is near new but the custom RAP4 M4 needs a little work but is easily repaired for use as a paintball marker. Both are fully functional and can be used with or without the bike.

This bike is one of a kind and is a must have for those wanting a unique vehicle and great conversation starter. Perfect display piece for the collector, a motocross store, a military surplus store, paintball or airsoft store, or any business looking for a unique display piece. Or simply remove the weapons and take the bike to your local moto track and turn heads!

For those interested in displaying the bike to the public, we will also include a few show items such as custom information board and an ammo/weapon case.

For those of you that are interested in the movie history of this vehicle ...pictures of bike with stuntman on fire are from the film "Backstreets of Heaven" filmed last month and set to be released next year. Additional images of the bike on the film set as well as a letter from the film's stunt coordinator who built the bike will be provided to the winning bidder. (Note: the stuntman pictured is a professional and under no circumstances should anyone attempt the stunt shown in the photos at any time or for any reason as this stunt is extremely dangerous!)

Bike, weapons and accessories are sold as a package and are sold as is. Mileage is approximate.

If you like the bike shown but want something a little different or you want to use your own bike as the base, we can also custom build a bike to order and to your specifications. Feel free to email for more information.

Last but not least, do not bid if you have no intention of paying! Previous bidder was quick to bid but flaked when it was time to arrange payment...so now the bike is back up for auction. Serious bidders only please! Winning bidder must contact us within 48hrs of close of auction or item will be relisted!!!
